GERMAN PARLIAMENT.

Opening Speech of The Emperor To-Day.

National Associated Press to the Star.
BERLIN, Feb. 12.—The Reichstag opened to-day with the usual ceremonies. The Emperor in his speech said, that on account of the serious increase in their military establishment, made by other European powers, the Government had decided that the necessity for similar action was imposed upon Germany. It was indispensable to secure the safety of the country. The Government, feeling its responsibility for the welfare of the entire people of the Empire, could accept no risks. Europe might or might not soon become involved in war. He trusted that the prevailing peace might not be broken, but Germany interested in state she could not pardon herself if a struggle should spring up and she and the Fatherland unprepared to meet it. Parliament would be asked to vote an increase of the army, but one which he was confident they would feel was not to be regarded excessive or menacing, if the size of the armaments of other Powers was taken into consideration, and he trusted the Reichstag would see the necessity of approving the measure as a precautionary one. The Emperor in referring to the subject of his foreign relations, said that they were entirely friendly with all the powers.

TERRIFIC TUMBLE.

An Immense Chicago Elevator Gives Way.

And Lets Down a Deluge of Golden Grain.

National Associated Press to the Star.
CHICAGO, Feb. 12.—The large new elevator of Douglas & Stewart, situated beside the track of the Chicago, Burlington & Quincy Railroad, between State and Clark streets, gave way under the heavy pressure of grain this morning, the whole northern portion falling out and completely covering the railroad. No trains could go out, and incoming trains were compelled to stop at Clark street, whence the passengers came down by street cars. Tracks are being laid around the wreck. The elevator was built by Geo. Douglas, of Cedar Rapids, and Robert Stewart, of this city. When completed, about six weeks ago, it was leased by Munger, Wheeler & Co., who had it entered as a regular elevator, and stored therein 123,000 bushels of No. 2 spring wheat. Their loss is \$50,000.

They are at work with a large number of wagons gathering up the golden wheat and storing it elsewhere. The elevator was considered one of the best constructed in the city, and only yesterday had been inspected and pronounced safe. It is considered now that the accident was due to the weakness of the foundations. Its capacity was placed at from 150,000 to 200,000 bushels. The building cost nearly \$100,000, and is almost a total wreck. The loss will be at least \$75,000, and the loss on machinery \$10,000. There was a fire insurance of \$40,000, but no accident insurance.

They say they are going to Louisiana to work in the interest of Gen. Grant's nomination for the Presidency. They allege that Pinchback was promised the appointment of Surveyor, and that subsequently this promise was ignored and Lewis retained. They hold Secretary Sherman responsible for the disappointment of Pinchback, and intend to prevent him from getting the Louisiana delegation to the Chicago Convention if they can.

RAILROAD RUMBLINGS.

MASON & BRUNSWICK PURCHASE.

SPECIAL TO THE STAR.

ATLANTA, Feb. 12.—The purchasers of the Mason & Brunswick Railroad are here, and were consulting Governor Colquitt all day. There are rumors of a difficulty in arranging for the transfer of the road, and one report says the purchasers want the Governor to take notes for the money, but the act authorizing the sale will not permit this.

Others say the purchasers are ready to pay at any time. Parties who claim to have bought the road at the former sale still threaten an injunction if the later purchasers attempt to take control. Rumors say the recent purchasers will make the first payment to-day.

REDUCTION OF RATES.

NATIONAL ASSOCIATED PRESS TO THE STAR.

NEW YORK, Feb. 12.—The Pacific Mail Steamship Company having reduced their passenger rates to San Francisco to \$75 and \$35 for cabin and steerage passengers, the railroad companies have given out that they also will reduce the fare to \$100 for first class, \$75 for second class, and \$45 for third class, or reduction of \$36, \$30 and \$20 respectively.

NEW YORK CENTRAL AND ERIE POOL.

NEW YORK, Feb. 12.—The contract between the New York Central and Erie Railroad Companies, regarding the new pooling arrangement, has been formally agreed upon, and will be signed by Messrs. Vanderbilt and Jewett as soon as the amendments proposed can be incorporated in the original agreement. The negotiations for this contract have been in progress for several weeks. A final understanding was reached yesterday, and the papers are now in course of preparation.

NEW YORK CENTRAL OIL CONTRACT.

NEW YORK, Feb. 12.—The contract which has been pending some time in regard to the transportation of oil over the New York Central Railroad has been substantially agreed to, by the subscribing parties, and the conclusion of the negotiations is hourly expected. Although the precise terms of this contract have not been made public, it can be stated after inquiry in the proper quarter that the new arrangement will be very advantageous to the New Jersey Central. Indeed it is said that the earnings of the line from the transportation of oil alone, will under this agreement suffice to pay a dividend of six per cent. on the capital stock. It is known that the road is now earning a surplus on its ordinary traffic.

THE OIL SHIPMENT POOL.

NEW YORK, Feb. 12.—It is known to the privileged few this afternoon that the New Jersey Central has been made a party to the Trunk Line pool, which will hereafter control all the shipments of oil from the Pennsylvania oil regions to tide water. The New Jersey Central and its connections, the pipe line under the contract, will get about one-sixth of the entire traffic, and the remaining five-sixths will be divided between the Pennsylvania Central and New York Central and the Erie Railroad. The Baltimore & Ohio will get but a small proportion.

CIRCLING CYCLONE.

Terrible Tornado in New South Wales.

Awful Destruction of Life and Property.

NATIONAL ASSOCIATED PRESS TO THE STAR.

LONDON, Feb. 12.—A dispatch from Sydney, New South Wales, states that the island of New Caledonia was visited by a fearful cyclone on the 26th of January, which resulted in an enormous destruction of property and loss of life within the circle of the storm.

The wind is estimated to have blown at the rate of one hundred miles an hour. At Nimma, the seat of the Government, the scene is described as having been terrible. The sea rose to an almost unprecedented height, and the force of the wind was greater than had been experienced there for years. The waves, notwithstanding the fact that the harbor is sheltered by several outlying islands, swept the shore and drove several ships which were lying at anchor in the port upon the rocks and wrecked them completely.

Houses were unroofed or blown down, altogether, in many cases, crushing the inhabitants beneath the ruins. In the Loyalty and other adjacent islands the effects of the cyclone were less pronounced, only because there was less to destroy.

The course of the storm was southwesterly, and it is supposed to have crossed the whole width of the Pacific from the direction of the northern coast of South America or Mexico, subsiding before reaching the shores of Australia.

Reports from the interior of New Caledonia speak of great destruction of life and property in the agricultural villages, at the mines and on the Peninsula of Ducos, the penal settlement of France, to which country the island belongs.

AID FOR IRELAND.

Action of the Chamber of Commerce Committee.

The Irish Relief Committee of the Chamber of Commerce organized yesterday by appointing Richard Smith, President; Thomas Morrison, Treasurer; D. W. N. Hobart, Secretary. A committee was also appointed to draft the following appeal which was presented to the Chamber to-day:

To the Cincinnati Chamber of Commerce and the Citizens of Cincinnati:
The undersigned Committee appointed by the Chamber of Commerce to consider the question of relief for the suffering people in Ireland, beg leave to report:

There is great destitution in the south and west of Ireland, resulting from repeated crops failing, and owing to the general deficiency in agricultural products there is an inability in the country to take care of its own poor.

Therefore relief from outside quarters has become necessary. From well authenticated reports it is ascertained that thousands of families are on the verge of starvation, and that multitudes are subsisting on a small portion of corn bread per day, a quantity not adequate to one meal a day.

It is not worth while to consider in this emergency what other countries or peoples are doing, or ought to do, but what our people, who have been blessed with abundant harvests and are enjoying general prosperity, ought to do under the circumstances, and it should not be forgotten that while we are considering hundreds of thousands of people in Ireland are suffering for the necessities of life, all of whom could be relieved if it were possible to send them the food that is daily wasted in the United States.

The Cincinnati Chamber of Commerce and the citizens of Cincinnati have never failed to respond promptly and liberally to the call for the relief of suffering fallen men, and we feel sure they will not fail to answer this present call in a substantial way.

Unfortunately political agitators are making use of the prevailing distress to cause disturbances in Ireland, and have thus created the impression that money contributed to feed the hungry poor may be used to sustain the political cause of the agitators.

Your Committee, not unmindful of this, have adopted a policy with reference to funds that may be entrusted to them that will insure the application of every dollar contributed directly and in full to the relief of the Irish in want.

To this end we have decided to select in Ireland commercial bodies corresponding in character with our Chamber of Commerce, to take the responsibility of seeing to the proper distribution of the funds in our hands.

Your committee would also recommend that collections for this purpose be taken in all the churches of the city one week from next Sunday and the attention of parties is especially directed to it. Mr. Thomas Morrison has been elected Treasurer of the committee and to him all contributions may be paid.

[Signed.]
